

Uploading a Specialist Letter

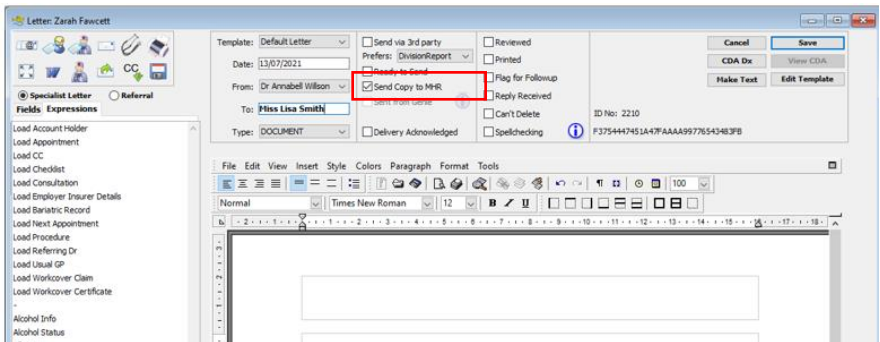

Note: These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their individual healthcare identifier (IHI) has been validated in your system

For users of Genie v 9.4.1 or later, registered under the Genie Solutions contracted service provider approach.

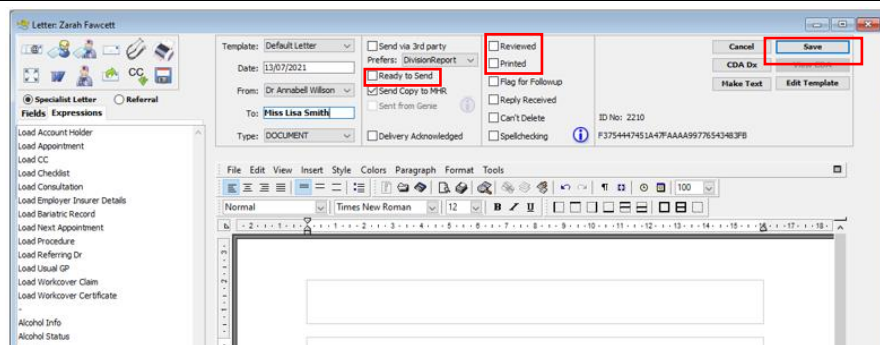

STEP 1:
In the patient's clinical file, click on the **create a referral or reply letter** icon.

STEP 2:
When creating a letter, the **Send Copy to MHR** check box will be automatically ticked. This can be manually unticked if you do not want this letter to be uploaded to My Health Record.

STEP 3:
Create your letter as usual. Once the letter has been marked as **Ready to Send**, **Reviewed** or **Printed**, when you click **save** the letter will be automatically uploaded to your patient's My Health Record.

Note: After the letter has been sent to My Health Record, the 'Send Copy to MHR' check box will change to 'Sent to MHR.'
