

Viewing Clinical Documents in My Health Record

Note: These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their individual healthcare identifier (IHI) has been validated in your system

STEP 1:

To access the patient's My Health Record, select **My Health Record** from the top menu.

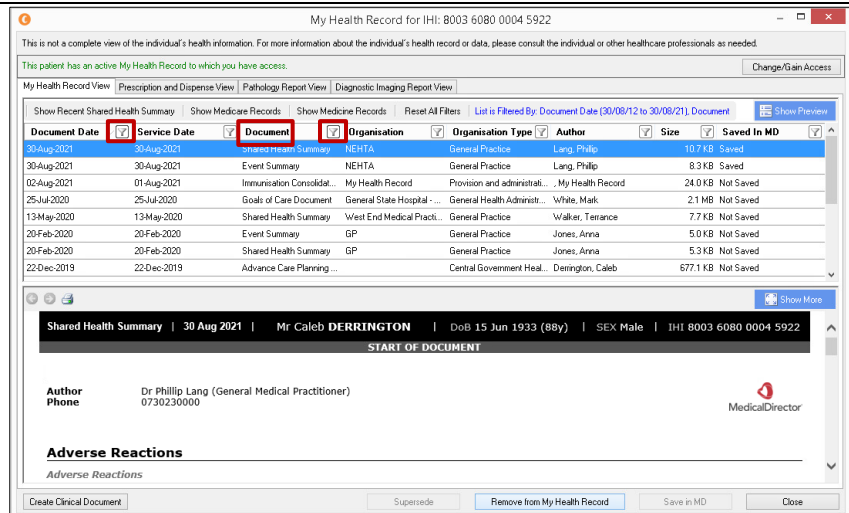

STEP 2:

The Document List will appear, displaying documents in the patient's My Health Record (subject to any search filters which are set). When a document is highlighted, a preview will appear below the list.

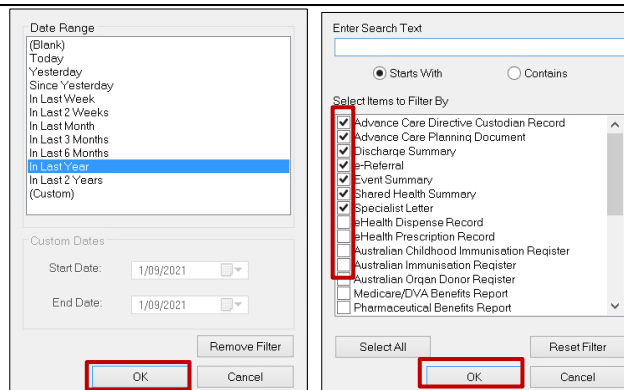

You may click on the column heading to **sort** documents in your preferred order. For example, clicking on the Document heading will sort documents in alphabetical order.

You can also filter the document list by selecting the funnel icon. For example, you can filter **By Date** or by **Document Type**.

STEP 3:

Pop-up windows will appear allowing you to reset the relevant search parameters. Adjust document types to display by ticking/unticking the preferred checkboxes. Once completed, select **OK**. The document list will update to reflect the changes to the search parameters.

Viewing Clinical Documents in My Health Record continued

STEP 4:

To open and view a document, select the document from the list and double-click.

Alternatively, click on Show More once the selected document appears in the preview area underneath the document list.

My Health Record for IHI: 8003 6080 0004 5922

This is not a complete view of the individual's health information. For more information about the individual's health record or data, please consult the individual or other healthcare professionals as needed.

This patient has an active My Health Record to which you have access.
